B. Snap-on Mount Ring

Not Fully Snapped

Fully Snapped Ready For Installation

FIG. 1

Installation Procedure

|	
Step 1 Fig. 1	Assemble Snap on Mount Ring (B) to WhereTag (A) Seating ring fully.
Step 2 Fig. 2	Use 2 Pan Head Phillips 8-32 SS Screws (8) and 2 Hex Nylock 8-32 SS Nuts (7) to attach the Tag with Mounting Ring to the Reference Tag Bracket (2): see Fig. 2.
Step 3 Fig. 3	Check WhereTag Orientation against Fig. 3.
See Other Side of this Document **Step 4 Fig. 4**	When mounting to a wall or pole, assemble the mounting arm to the tag bracket using the supplied hardware: see Fig. 4. Insert the ¼-20 bolts through the split washer and the flat washer. Place the tag bracket over the mounting arm and thread the ¼-20 bolts to the nut inserts in the mounting arm.
Step 5 Fig. 5	Mount the assembled brackets to the pole or flat vertical surface and use appropriate hardware. See Fig. 5. If mounting to a horizontal surface such as a ceiling or overhang, use the mounting holes at the top of the tag bracket and appropriate hardware, and discard the mounting arm.

Torque Screws to 15 +/- .5 inch oz.
