## Installation

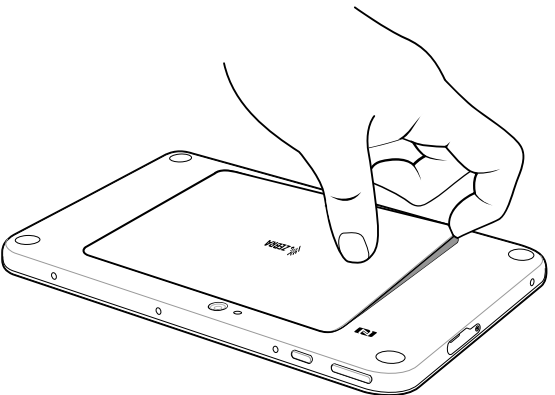

**CAUTION:** Power off the ET5x before installing or removing the Payment Z Back.

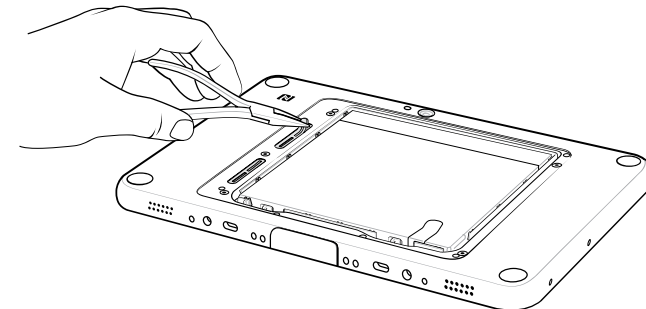

**CAUTION:** Do not use any tool for battery cover removal. Puncturing the battery or seal may cause a hazardous condition and a potential risk of injury.

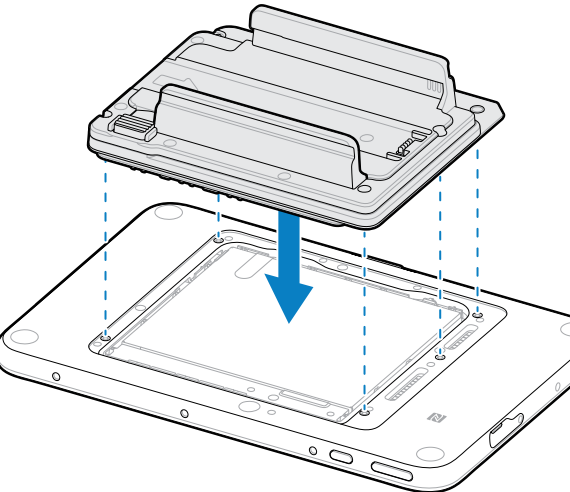

Remove the battery cover and store in a safe place.

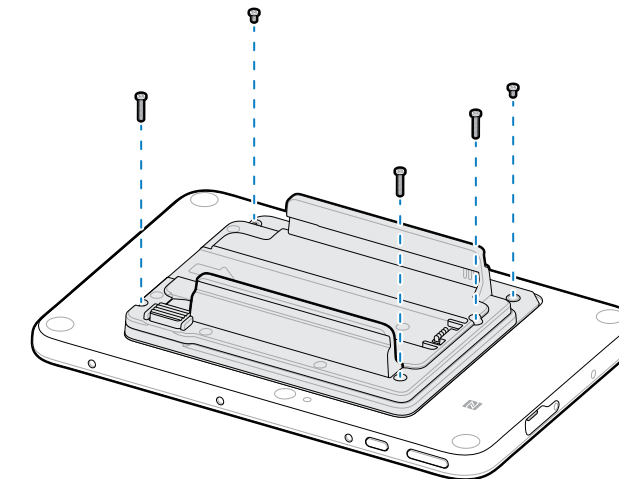

Using a plier, remove the two gaskets.

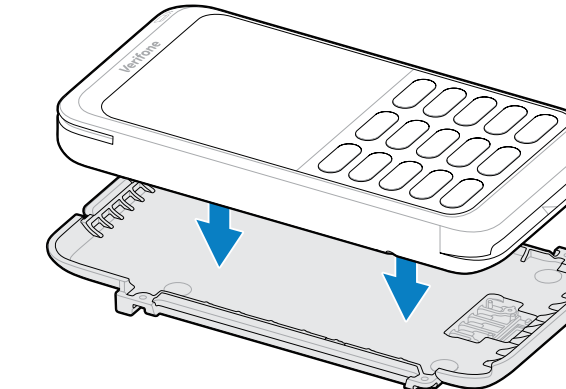

Align the payment Z back to the battery well.

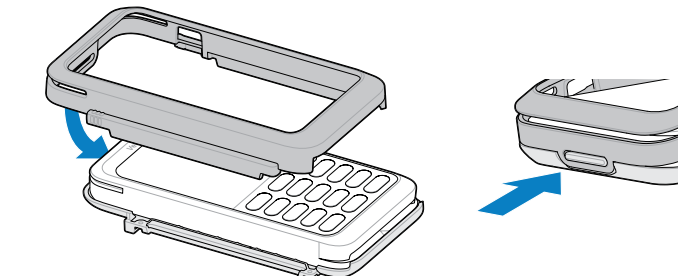

Using a cross head or Phillips screwdriver, secure the payment Z back to the device using three M2 11 mm and two M2 4 mm screws.

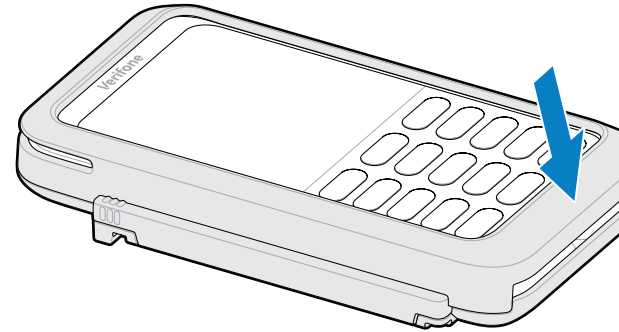

Place the payment device into the bottom tray.

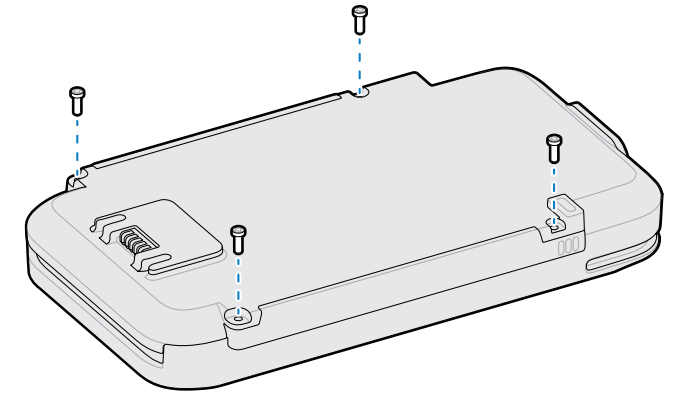

Align the top cover with the top locking mechanism, and lock it in place.

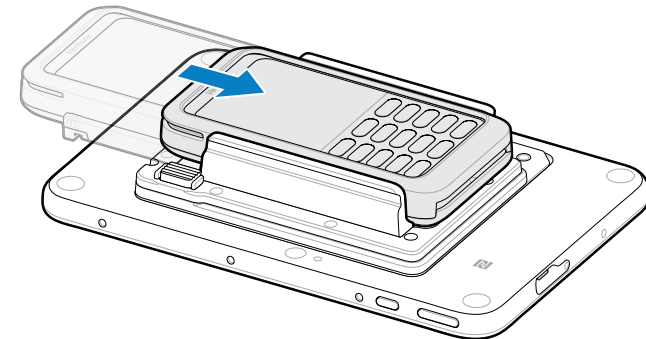

**Press down the top cover to clip it in place.**

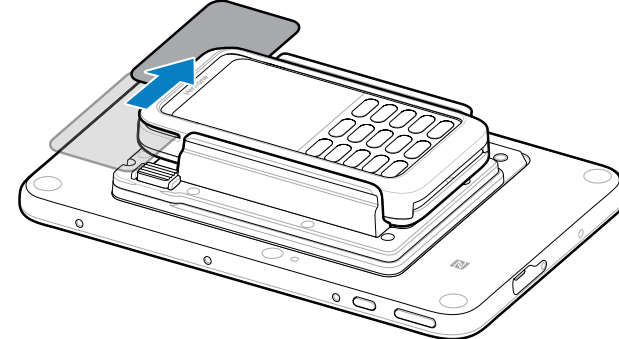

**Using a cross head or Phillips screwdriver, secure the payment device using four M1.6 5 mm screws.**

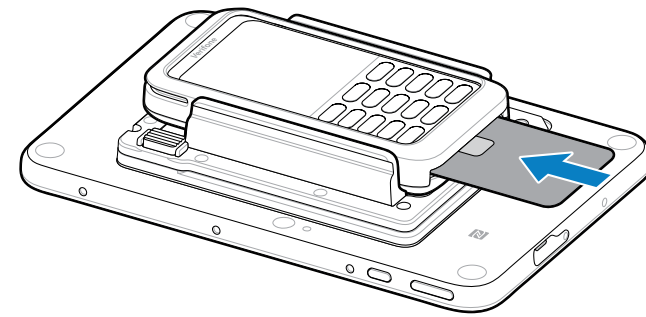

**Insert the payment device into the Z back.**

**Swipe a card with the magnetic stripe facing the tablet.**

**Insert a card with the chip facing away from the tablet.**

**To remove the payment device, press the release latch and slide the payment device out of the Z back.**
