Fixes in this Release

- Modifies battery charging algorithm
- Fixes issue where Num Lock key was on at boot

Installation and Configuration Instructions

1) Download the ZIP file to your XSLATE-B10 hard drive
2) Extract the contents of the ZIP file to your desktop
3) Using File Explorer, navigate to the appropriate directory where you unzipped the BIOS update. If you are running Windows 7, navigate to the Win 7 directory. If you are running Windows 8, Windows 8.1 or Windows 10, navigate to the Win 10-Win 8 directory. (Note) If you are running Windows 7 in UEFI mode use te Win 10-Win8 directory. Conversely, if you are Win 8.x or Win 10 in Legacy Mode, use the Win 7 directory
4) Right click on FLASH.BAT and choose Run as Administrator
5) Your system will reboot and update the BIOS
6) Once complete, the system will shutdown
7) BIOS update is finished
