  - • None

Version Information

Below Table contains important information on versions

Description	Version
Product Build Number	11-15-23.00-RG-U02-STD-ATH-04
Android Version	11
Security Patch level	Oct 01, 2022
Component Versions	Please see Component Versions under Addendum section

Device Support

The products supported in this release are TC53 and TC58 family of products.

Please see device compatibility details under Addendum Section.

Known Constraints

- • OCR and Image capture options (Workflow input) are grayed out on DataWedge when Android Device screen lock is enabled. If OCR Wedge or Free-form Image Capture Workflow feature is required in conjunction with a device pin, it is recommended to continue to use the prior release until the next release. For Document Capture Workflow, a hot fix will be available shortly. Please contact your account team for details.

- • Delta OTA packages are not supported in Recovery mode. To apply Delta OTA packages, use StageNow/MDM solution.

- Key programmer configuration is lost after performing OS update.

- During Battery True Swap device may suspend before 30 seconds with some EMM Kiosk mode Launchers.

- User will not be able to push files into below listed directories using adb command. Alternately, EMM clients or StageNow can be used to push files into below listed directories.
    - /enterprise/
