Known Issues

- PTT Express notification icon can be seen in notification bar even when user disables the PTT Express service.

About Zebra PTT Express

Zebra PTT Express allows enterprises to add secure push-to-talk (PTT) communications quickly and easily to a wide variety of Zebra devices, creating a powerful instant voice connection between your workers — without requiring the purchase of new devices or network/telephone infrastructure. With PTT Express, workers can initiate a broadcast PTT call, and call recipients can respond either to the entire group — or only to the original caller via the private response key.
